Dear Sir;

I would like to know what is happening with my Patent application. I thought that the Summary that I had written fairly well explained The advantages of the Secure Condom over prior art.

I have since wrote up two new Summaries. One is long, and one is short. I have also included a copy of the original Summary. I hope that one of these summaries would be agreeable to you.

I am enclosing a stamped addressed Envelope, and would like to hear from you at your earliest convenience. Thanks a lot for your help.

Sincerely;

*Cleon Griffiths*
